# P5 210/HS

The most efficient 2.1 m LED hybrid printer in the market.

## Foldable roller tables

- > Heavy duty roller table
- > Easily movable
- > Space savings
- > Foldable for small board size
- > Fast change from board to roll and vice versa

## Multitrack 6

- > Minimum size A3
- > Up to 6 independent printing queues
- > Sensor control boards feeding
- > No front registration table needed
- > Continuous boards printing
- > Different board sizes

## Multiroll

- > Upper and lower roll loading positions
- > Fast material change for time savings
- > Roll loading/unloading while printing
- > Tension bar system

## Peripherals

- > P5 Automat ready (feeder/stacker) for full and 3/4 automation
- > Interface for third party inline cutting systems

## Width & thickness detection

- > Width and thickness measurement
- > Wrinkles alert
- > Reduced to minimum risk of media crash
- > Auto media channel settings

## D4 Double 4

- > Double CMYK color configuration
- > Maximized productivity
- > Highest performance

## Corrugated printing

- > Special adjustable guides system for corrugated carton
- > Single and dual track
- > Automated corrugated option for HS version

## Safe ink refill

- > Avoid wrong ink filling
- > Ink batch scanning
- > Inks expiration alert
- > Mechanical lock and light alert

## Heavy duty roll

- > Roll diameter up to 600 mm

## Special ink effects

 Durst Relief  
(Hapt & gloss effect)

- > Varnish with Extra Gloss
- > Primer for extra adhesion

# CONFIGURATIONS & TECHNICAL DATA

## P5 210/HS BOARDS

- > Roller tables for manual operation
- > Continuous board feeding
- > 2 tracks

- Options:**
- > Multitrack 6
  - > Single/dual track corrugated

## P5 210/HS HYBRID

- > Roller tables for manual operation
- > Continuous board feeding
- > 2 tracks
- > Roll tool

- Options:**
- > Multitrack 6
  - > Multiroll
  - > Single/dual track corrugated

## P5 210/HS ¾ AUTOMATION BOARDS

- > Roller table for manual feeding
- > P5 Automat stacking unit
- > Continuous board feeding
- > 2 tracks

- Options:**
- > Multitrack 6 (manual op.)
  - > Single/dual track corrugated

## P5 210/HS ¾ AUTOMATION HYBRID

- > Roller table for manual feeding
- > P5 Automat stacking unit
- > Continuous board feeding
- > 2 tracks
- > Roll tool

- Options:**
- > Multitrack 6 (manual op.)
  - > Multiroll
  - > Single/dual track corrugated

## P5 210/HS FULL AUTOMATION BOARDS

- > P5 Automat feeding unit
- > P5 Automat stacking unit
- > Continuous board feeding
- > 2 tracks

- Options:**
- > Multitrack 6 (manual op.)
  - > Single/dual track corrugated

## P5 210/HS FULL AUTOMATION HYBRID

- > P5 Automat feeding unit
- > P5 Automat stacking unit
- > Continuous board feeding
- > 2 tracks
- > Roll tool

- Options:**
- > Multitrack 6 (manual op.)
  - > Multiroll
  - > Single/dual track corrugated

## GENERAL TECHNICAL DATA

Max. productivity	P5 210 HS	up to 568 sqm/h (6110 sqft/h)
	P5 210	up to 243 sqm/h (2620 sqft/h)
Resolution		700 x 1200 dpi, 900 x 1200 dpi
Drop size		7 pl
Color Channels		up to 8
Max. printing width	Boards	2100 mm (6.89 ft)
	Single roll	2100 mm (6.89 ft)
Max. roll weight (lower & upper each)		300 kg (660 lbs)
Max. roll diameter		420 mm (16.5 in)
Roller table length		Std. 75 cm (29.5 in)/140 cm (55.10 in), Opt. up to 220 cm (86.60 in)

# DURST P5 DOUBLE 4

The Durst P5 Double 4 (D4) technology maximizes the productivity of the P5 UV series printing systems through the implementation of a double CMYK color configuration.

This brings the P5 printing system to a new level of performance:

## P5 350 HS D4

---

2 Pass 708 sqm/h

3 Pass 472 sqm/h

4 Pass 354 sqm/h

---

## P5 210 HS D4

---

2 Pass 568 sqm/h

3 Pass 378 sqm/h

4 Pass 280 sqm/h

---

---

## CONFIGURATION

The Durst D4 technology can currently be configured for all available P5 350 HS and P5 210 HS versions (Boards, Hybrid, 3/4 automation, full automation) and is also available as a field upgrade.

DURST P5  
DOUBLE 4

# DURST UV-LED INKS

Greenguard Gold certified

## ATURION LED INK

Multipurpose ink with balanced stackability and flexibility, a wide adhesion range combined with larger color gamut make this ink suitable for many applications.

P5 210/HS  
P5 350/HS  
P5 Automat

Colors

## ROLL LED INK

This versatile ink is particularly suitable for flexible media applications requiring a wide adhesion range and very good flexibility.

P5 210/HS  
P5 350/HS  
P5 500

Colors

## POP FLEXIBLE LED INK

High volume production ink, ideally suited for paper surfaces and tack sensitive applications even at highest print speed conditions.

P5 210/HS/D4  
P5 350/HS/D4  
P5 Automat

Colors

## RIGID LED INK

Designed for specific flatbed applications providing wide color gamut, good surface resistance, low tack, and excellent adhesion.

P5 210/HS  
P5 350/HS  
P5 Automat

Colors

## FLT LED INK

This highly flexible ink is particularly suitable for materials that demand highest flexibility, such as lightbox textiles, transparent films, banner and day & night applications.

# P5 AUTOMAT powered by Elitron

The feeding and stacking system for versatile, safe automated production.

## Safety light barriers

- > System stops by accidental overstepping

## Dual track operation

- > Dual track loading/unloading
- > Stack capacity up to 90 cm. (35.4 in)
- > Suitable for different board sizes

## Extra large boards

- > Manual operation for extra large boards
- > Docking kit for roller tables

## Safety metal coverage

- > Safety regulatory fulfilment
- > Avoids accidental collisions
- > Perforated carters for workspace visibility

## Boards registration

- > High accuracy side and front media registration
- > Selectable registration mode priority
- > Media positioning by pick-up suction system

## Servicing side doors

- > Safe operation
- > Quick opening
- > Enable easy access for servicing

## Media detection sensors

- > Optical sensors for detection of any type of media
- > Double sided printing registration

## Adjustable suction sectors

- > Media channel presets for suction cups activation
- > Boards size versatility
- > Suitable for thin media
- > Turbo vacuum for heavy media

## Sliding registration tables

- > Enable the use of roll-to-roll without moving the entire system
- > Fast material change
- > Easy sliding operated by one person
- > Quick lock and unlock system

## Media pressure rollers

- > Input pressure rollers for media loading stability with auto height adjustment by media channel
- > Output pressure rollers to avoid media sliding on stacking side

## Advanced software control

- > Touch screen panel
- > User friendly software
- > Automatic media channel settings thanks to ID communication from printer to Automat

For more information,  
please visit

[durst-group.com/software](https://durst-group.com/software)

**durst**

---

# DURST SOFTWARE & SOLUTIONS

A revolutionary software eco-system that covers all relevant aspects of your printing business – open and modular.

---

Durst Software & Solutions offers smart and simple software solutions to streamline the process “From Pixel to Output”. The solutions which are specifically tailored to digital printing – from initial file creation through prepress to production and final analysis – help improve your printing production processes and simplify your business. Consulting and training services tailored to your specific needs will help you to achieve optimized work processes.

The Durst software is modular and can be flexibly adapted to your needs – from a simple stand-alone solution to a fully integrated system.

All products are individually expandable and can be used for large format, label, corrugated, and textile printing.

---

# PRODUCT OVERVIEW

---

## ERP/MIS Durst Lift ERP

Durst Lift ERP is a print specific cloud-based ERP system that automates all processes within your printing company and provides a transparent, paperless and interactive experience for you and your customers. A configurable

software suite to keep your print shop running lean and efficient. Streamline your business from quote to delivery with Lift ERP.

---

## WEB-TO-PRINT Durst Smart Shop & Editor

**Durst Smart Shop** is an innovative web-to-print solution designed for the printing industry. From the online sale of products with print specific attributes to the print-ready PDF file: a global solution to address target specific groups, get new customers and offer them unlimited personalization options with the online editor, Durst Smart Editor.

**Durst Smart Editor** is a cloud-based application that allows personalized print products to be designed directly in the web-browser. It is easy to integrate into your existing web shop via API. Allow your customers to get exactly what they want with real-time product customization and realistic previews and receive their orders as a print-ready files.

---

## PREPRESS & PRODUCTION Durst Workflow

A browser-based software solution that combines prepress and production automation tasks. File checking, data preparation, color management, ink and media saving and much more. Durst Workflow is the ideal toolbox to ensure an efficient production flow with optimal

results in the shortest time. Generate print predictable files, manage your process according to your production requirements and get real time feedback on the current status with Durst Workflow.

---

## DATA & TRANSPARENCY Durst Analytics

The analytics software designed for your Durst printer to allow data-driven decisions. Customized dashboards with key performance information, production timelines, detailed job information as well as KPI reports.

Spare part conditions are also effortlessly checked to allow preventive maintenance operations. Increase your productivity and keep your equipment under control with Durst Analytics.

# DURST SMART FACTORY

A smooth path to peak performance with Durst's software and solutions.

The Smart Factory approach from Durst is about providing a holistic product portfolio with accompanying services,

designed for 360° business solutions, offering not just the printing systems themselves but e-commerce, PDF workflow, ERP, analytics, consulting, integration services, and training. This scalable approach enables your business ideas and innovations.

## CUSTOMER EXPERIENCE

Engage your customers with digital touchpoints along the entire sales and fulfillment process. As you implement services such as online shops, dedicated customer portals, order tracking, instant notifications on mobile devices, and automated approval processes, your customers will thank you with many (re)orders.

## PROCESS AUTOMATION

Complete automation of repetitive tasks gives you more time for the creative work. Paperless production and embedded quality assurance will increase your internal efficiency, while faster turnaround times and transparent order status information will excite your clients.

## PRODUCTION LINE AUTOMATION

A digital workflow increases productivity, reduces error rates and any necessary reprints through defined file preparation and balanced color calibration between all printers.

## DATA GENERATION

Digital processes provide data and the corresponding history. This is the basis for any kind of improvement, whether in sales, process efficiency and speed, quality, or maintenance; they all result in lower operating costs and higher revenues.

**Take the next step towards the Smart Factory with Durst Software & Solutions!**

# DURST TRAININGS

For more information,  
please visit

[durst-group.com/trainings](https://durst-group.com/trainings)

---

# DURST TRAININGS

In our training center, customers have the opportunity to take part in one of our target-group-oriented training courses. Alternatively, tailor-made training concepts can also be offered.

---

## OPERATOR

- > Qualified operator
- > Printing process control

Training for machine operators to learn the general handling and maintenance of the printing system.

---

## PRINT WORKFLOW PREPRESS

- > Printing performance
- > Effective workflow

Training for Durst Workflow from prepress to final printing: theory and implementation of printer linearization, media profiling, determination of ink limits and color-management-specific settings.

---

## MAINTENANCE OPERATOR

- > Operator training
- > Preventive maintenance
- > Guided troubleshooting

**Level 1:** Training for maintenance operators to deepen their knowledge of the regular and preventive maintenance of machines for a flawless production as well as remotely guided first-aid troubleshooting.

---

## MAINTENANCE ENGINEER

- > Basic printer operations
- > Preventive maintenance
- > Guided troubleshooting
- > Proper repair

**Level 2:** Training for maintenance technicians to deepen their knowledge of the regular and preventive maintenance of machines as well as troubleshooting to acquire advanced technical knowledge.

# DURST GROUP

We are a manufacturer of advanced digital printing and production technologies with headquarters in Brixen, South Tyrol, Italy. Our core business is digital inkjet printing and the associated ecosystem of printing inks, software and services. We offer holistic solutions in the following business areas:

## GRAPHIC BUSINESS

Large Format Printing  
Textile  
Decoration

## SPECIAL SOLUTIONS

Ceramics  
Digital Glaze  
Industrial 3D

## LABEL & FLEXIBLE PACKAGING

Label Digital  
Label Hybrid  
Specialty Packaging

## NEW BUSINESSES

Software & Solutions  
Corrugated &  
Folding Carton

---

## OUR CORE VALUES

To earn loyalty and respect from our customers and employees by providing high-tech systems and solutions in the highest quality and by being true to ourselves:

›A little big company with firm roots in Tyrol‹.

Christoph Gamper  
CEO & Co-Owner, Durst Group AG
