

NEW

OPTIONAL EXTENSION KIT

Extension kits for all models can be purchased separately. We don't just extend the squaring arm, we extend the whole machine.

OPTIONAL FREE STANDING KIT

All machines come as standard with a wall mounting bracket. Optional free standing kits can be purchased separately.

APOLLO XL - Multi substrate cutter

The new **Apollo XL** can cut materials up to 20mm (3/4") thick. It cuts cleanly, accurately, without dust and without noise and is the most affordable heavy duty cutter available. The **Apollo XL** is available in 4 sizes from 165cm (65") to 310cm (122").

FEATURES INCLUDE:

- 3 x Quick change tool cartridges.
- An integrated laser sight line (all tools share a common cut line).
- An integral counter balance which reduces operator fatigue and leaves hands free for loading material.
- Two production stops, making repeat cuts for production runs quick and accurate.
- Two Quick Stops for added lateral support.
- A full length clamping system, dual clamps on the 250 and 310 models.
- A 5 year guarantee on all parts except blades and cutting wheels and a 20 year guarantee on the cutting head bearings.

Comes with 3 tools as standard:

TH#1 PVC	TH#2 Aluminium Composite	TH#6 20mm Foam- board
4160-2	4161-2	4166-2

4 optional tools to choose from:

TH#3A V-groove Aluminium Composite	TH#3B Score and break Acrylic	TH#5 Score and break Glass	TH#4 Sheet Aluminium
4162-2	4163-2	4164-2	4265-2

Length \times	Apollo XL	Apollo XL Extension Kit	Apollo XL Free Standing Kit

210	4044	4134	4104
250	4045	4135	4105
310	4046	4136	4106

ARTEMIS - Safety straight edge

The **Artemis** safety straight edge is a simple and effective solution to assist in the safe cutting of many of the materials used in the modern Sign and Graphics industries.

This top-quality straight edge has been engineered in extruded aluminium and anodised for lasting protection. The **Artemis** has been specially shaped to help focus downward pressure on clamping the work piece and to protect the fingers against any tool slippages. A full-length metric/imperial scale is fitted along the front edge and a press fit stainless steel bead helps to protect the aluminium edge from blade damage.

Length \times	60	100	150	200	250	300
