

POLAR 1600 DA

AUTO HEAT ASSIST/COLD LAMINATOR

High-performance laminator suitable for industrial applications. It performs laminating and mounting of prints, along with applying application tape and double-sided adhesive. Compatible with a wide range of cold laminating film.

KEY FEATURES

- Professional sturdy laminator designed for daily use with high quality results
- 64-inch aluminium shafts for easy loading and unloading of rolls
- Supports heavy rolls with a diameter up to 160mm due to the increased distance between rollers and support shafts
- Convenient rear take-up/rewinder for ease of use on long laminating runs
- Heated upper roller with preset electronic temperature regulation
- Intuitive set-up and operation using the user-friendly control panel

SUITABLE FOR...

- Printed roll materials
- Rigid displays
- Cardboard (packaging)
- Car wraps
- Floor graphics
- Backlit displays
- Graphics for exhibitions, events
- Banners, roll-ups, pull-ups
- Table displays
