Hahnemühle Photo Rag® Pearl

Hahnemühle Photo Rag® Pearl is a pure cotton paper with an inkjet coating that has been optimised for FineArt applications. The natural white artists' paper contains no optical brighteners and is characterised by its warm shade of white. The delicately defined, even surface texture gives the paper a lovely soft feel and the print a stunning sense of depth. In combination with the pearl-gloss premium inkjet coating, it produces outstanding FineArt prints with exceptional reproduction of colour and detail, deep blacks and beautiful contrasts. The acid- and lignin-free Photo Rag® Pearl meets the most exacting requirements for age resistance.

Hahnemühle Photo Rag® Metallic

Hahnemühle Photo Rag® Metallic is a silvery-shimmering FineArt inkjet paper with a specially formulated inkjet coating for FineArt use. The natural white cotton paper contains no optical brighteners and has the characteristic Photo Rag® surface structure and sumptuous feel. Photo Rag® Metallic features a special silvery-shimmering surface finish. The high-gloss premium inkjet coating with a unique metallic effect guarantees impressive printing results with bold colours, deep black and the perfect reproduction of colour and detail. The sophisticated silver metallic effect underscores the image and makes motifs with metallic elements, reflections, ice and glass, architecture and landscape shots, as well as black and white photographs with high-contrast tones shine. Photo Rag® Metallic is acid and lignin-free and meets the most exacting requirements in terms of age resistance.
