## Durapro Metallic Self Adhesive Film / 195gsm

DURAMETGOLD / DURAMETSIL

Durapro metallic self adhesive film is a unique dual sided coloured film, ideal for creating eye catching window displays or other smooth surface display areas. The film features a very smooth and glossy almost mirror effect that prints, cuts and weeds with ease. This film can be applied dry or alternatively applied wet for larger applications. The film and liner are PVC free making it an environmentally friendlier solution.

### Applications

Applied to perfectly smooth substrates like glass, the films shiny metallic print material has a mirror look finish. A short term application to give your displays a sleek and modern look that truly captures the attention of your customers.

Ideally suited for:

- for indoor and outdoor signage and lettering on glass and any smooth substrate
- as a metallic digital printable film for retail decoration
- as a reflective wall covering solution
- for 3D labels / doming
- for lamination boards and rigid substrates
- for pre-production packaging mock-ups and so much more
